

**THE ONLY NAME YOU NEED
IN COMPONENT CLEANING**

BIO-CIRCLE™ TURBO **- 2 in 1 Parts Washing System**

Bio-Circle™ Turbo incorporates an efficient combination of manual and automated cleaning processes to provide effective cleaning of a wide range of contaminants.

The combination of flow-brush and nozzle for precise manual cleaning together with an automated, spray-wash cycle ensures thorough cleaning of even the most complex, heavily contaminated parts.

The Turbo uses Bio-Circle™ liquid, a water-based formulation containing non-pathogenic, micro-organisms* that remove and then degrade contaminants. Bio-Circle™ liquid always maintains its cleaning effectiveness and never needs disposal making it not only safe and environmentally-friendly but also extremely cost-effective.

* The micro-organisms are non-pathogenic bacteria of Risk Class I according to Directive 2000/54/EC (unlikely to cause illness to human beings).

MODEL:	TURBO 800	TURBO 1000	TURBO 1200
Material of Construction	Stainless Steel	Stainless Steel	Stainless Steel
Overall Dimensions (l x w x h) (mm)	1060 x 1140 x 1560	1250 x 1340 x 1560	1470 x 1575 x 1800
Height with Lid Open (mm)	1965	1965	2300
Basket Diameter (mm)	800	1000	1200
Max. Clearance to Spray Bar (mm)	470	470	650
Maximum Payload (kgs)	160	250	350
Heat Load (kW)	4.5	6	9
Tank Liquid Capacity (litres)	140	220	380
