

# SOLVAC SOLVENT CLEANING SYSTEMS

THE ONLY NAME YOU NEED  
IN COMPONENT CLEANING

Effective component cleaning has always played an important role in manufacturing industry but today, it is more important than ever to ensure that component cleaning processes not only work effectively but are safe to use and do not harm the environment.

Solvac cleaning systems incorporate state-of-the-art design features to provide outstanding cleaning performance, minimal solvent consumption and simplicity of use. Solvac machines are available in a range of models and sizes, so no matter what the industry or application there's a Solvac machine that fits the bill.

## Solvac—The Only Name You Need in Solvent Cleaning

### Solvac S

Solvac S combines superior cleaning with high throughput capability and outstanding solvent efficiency. Not only that, it can be used with ANY non-flammable solvent. This fully automated cleaning system incorporates Load-Lock™ technology for complete operator safety and minimal environmental emissions.

Standard and bespoke systems are available, incorporating all process options, including ultrasonics.

MODEL	EFFECTIVE BASKET DIMENSIONS (mm)		
	Length	Width	Depth
S500	500	250	250
S1000	1000	350	350
S1500	1500	500	500

# Solvac F

Solvac F has been designed to utilise the exceptional cleaning performance of HFE/HFC solvents and really represents the best long-term solution to most precision cleaning problems.

This automated cleaning system incorporates Crest's unique 132kHz frequency ultrasonics and provides affordable, high-specification cleaning.

MODEL	EFFECTIVE BASKET DIMENSIONS (mm)		
	Length	Width	Depth
F200	203	254	152
F250	254	254	305
F450	457	305	305

# Solvac T

Solvac T can be used with HFE/HFC mono- and co-solvent cleaning technologies. This machine, available in both manual and automated formats has become the precision cleaning system of choice for many companies across a wide spectrum of industries.

MODEL	EFFECTIVE BASKET DIMENSIONS (mm)		
	Length	Width	Depth
T400	350	150	250
T500	450	250	250

# Solvac E

A truly remarkable solvent cleaning system capable of compliance with current environmental legislation, yet as simple to operate as a traditional open-topped degreaser.

The machine utilises an ultrasonic liquid immersion process to satisfy even the most stringent cleaning applications. Suitable for use with most non-flammable solvents.

Available in the following, standard sizes:

MODEL	EFFECTIVE BASKET DIMENSIONS (mm)		
	Length	Width	Depth
E500	500	250	250
E1000	1000	350	350
E1500	1500	500	500

## D&S Ultra-Clean Ltd for all your component cleaning needs:

- Equipment
- Spares
- Service
- Technical Support
