

# 'BIOZONE' SC MULTI-PURPOSE SURFACE CLEANER

## The Effective Cleaner for Industrial Surfaces

In today's world, it is really important to maintain the highest standards of personal and workplace hygiene. 'Biozone' SC is a powerful, water-based cleaner, specially formulated to remove even the most stubborn contaminants from work surfaces. The formulation contains no hazardous chemicals yet it is really effective in removing dirt, oil, grease, carbon deposits, fine particles and even viruses, making it especially useful for safeguarding the working environment.

'Biozone' SC contains corrosion inhibitors and is safe to use on all types of surfaces including: wood, plastics, ferrous and non-ferrous metals and painted surfaces. It is ideal for cleaning furniture, workstations, door handles, handrails, workshop tools and equipment, transport and handling equipment etc. Just spray directly onto the surface to be cleaned, leave for a few moments to act and then wipe with a cloth or sponge. A brush can be used on stubborn stains or heavily contaminated areas. After cleaning just wipe dry, or rinse with water as required. For sensitive areas, cleaning can be followed by disinfection using a proprietary solution.
